

WARRANTY CONDITIONS

The company declines any responsibility for problems caused by misuse, assembly and transport.

FRAGILE PRODUCT - PLEASE HANDLE WITH CARE

For guarantee purposes is strictly mandatory to accomplish following points:

On the reception of the product, any anomaly showing incorrect handling must be written in the transport document and recorded photographically.

After checking that the product is in a proper state concerning packaging, the installer/client must proceed by opening the box **without damaging it**, as in case of need to return the product package must be intact.

The product must also be removed from the packaging very carefully and placed in a protective base to avoid any damage due to direct contact with the ground or other irregular surfaces.

As this is a product produced in series some regulation may be necessary. At this point, we recommend a check and eventual adjustment by the installer. We also recommend the installer to check and confirm the proper functioning of the product and certify that it complies with satisfaction. **This check must be mandatory made before installing the product.**

In case of a manufacturing defect that must be reported to us in writing within 8 days after receiving.

The product installation attests that it complies with customer satisfaction and has been delivered in perfect conditions.

After this point the installer/client is responsible for the verification and confirmation of proper functioning, for the assembly and installation of the product.

Cabinets and mirrors are not prepared to get into direct contact with water or other liquids including corrosive, as well as to excessively humid or hot environments.

The sinks may present a variation on its dimensions of 5 to 8 mm. However this variation does not interfere with its compliance and respective proper functioning.

Before installing the sink Installer/client must place the sink on top of the cabinet to analyse and understand which compensations are needed. Only after this analysis it will be possible to proceed with final installation with glue.

Ceramic sinks in contact with corrosive liquids may result in damages not covered this warranty.

Is mandatory and unconditional the fixation to the wall of all mid and high columns with feet or plinth. Not fixing these furniture to the wall may origin its fall and cause damage to persons or property. The supplier shall not be unconditionally liable for any damage that is linked to this situation.
